MINUTES OF BRENTWOOD DISTRIBUTION SITE WALK/MEETING 1/30/09

CONVENED: 9:00 A.M.

PRESESNT: David Menter, Chairman Board of Selectmen
Kevin Johnston, Board of Selectmen
Jeffrey Bryan, Board of Selectmen
Andrew Artimovich, Board of Selectmen
Peter Russell, owner Brentwood Distribution
Marco Carrier, owner/manager Brentwood Distribution
Jill O'Connor, office manager Brentwood Distribution
John Kennedy, Planning Board
Gary Raymond, Brentwood Fire Dept
Nicholas Cricenti, PE

Brentwood Distribution had requested a meeting with Gary Raymond and invited members of the Board of Selectmen and Planning Board.

Peter Russell opened the meeting by describing how a bark mulch fire starts, the best way to extinguish these fires, and reviewing statistics from their Richmond plant regarding fire calls.

There was then discussion about the fire that took place at their Pine Road facility on January 25, 2009. Brentwood Distribution was upset that despite the fact that they've submitted emergency contact numbers to the police and fire departments, they were not notified at the time of the call. They have since redistributed a phone list and, at the recommendation of Gary Raymond, will post one on the door of the building as well. Nick Cricenti, a professional fire consultant of SFC hired by the Planning Board, recommends having a couple of drills to verify the notification process is working properly.

Peter Russell then said he would like to iron out the water source issue. Raymond said he made Brentwood Distribution aware of the 2000 gallon/minute requirement before they received Planning Board approval. Raymond said he is willing to work with Peter Russell on finding a water source. Cricenti said everyone is headed in the same direction; we just need to figure out how to get there. There was discussion about the various options for water sources.

Cricenti explained that he will write a report for the Planning Board offering suggestions then go forward from there.

At 10:00 a.m. the meeting adjourned.

Sincerely,

Julie Stevens
